

DRIVE IT TO THE

MAXX

TOUR

The Northeast Region is touring with a range of vehicles to give you the opportunity to experience our International[®] Trucks with a MaxxF[®] engine and fully loaded dump. We are creating a course that mimics the wide range of terrain you work in, with both paved acceleration areas and off-road terrain. There is also a full day of educational sessions designed to keep you informed about new technologies and regulations that affect your business.
