international® 3200 Integrated Mobility™ Chassis

# DRIVING, BOARDING, OWNING AND MAINTAINING COULDN'T BE EASIER.

The International® 3200 Integrated Mobility™ chassis is a clear advance in performance, reliability and value. With its low-floor design and “kneeling” ability, boarding and exiting is easy – the 3200 Integrated Mobility™ chassis, designed for mounting ADA-compliant bodies is ideal for paratransit use, as a shuttle vehicle for parking lots, rental car lots, hotels, casinos and retirement homes, or as a day trip tour bus. And with comprehensive service and support from nearly 900 dealer locations, International is your single-source solution.

## With this vehicle, you're always on Easy Street.

- The International® 3200 Integrated Mobility™ chassis is engineered for exceptional durability and long life. The International® VT 365 diesel engine is engineered to optimize performance, reduce emissions and enhance driveability, fuel economy, reliability and serviceability.
- The International® Diamond Logic™ electrical system allows engine, transmission, instrument panel and other vehicle components to communicate with each other electronically – increasing reliability and uptime, and reducing repair costs. The fully programmable system simplifies body integration and allows for automatic door locking, lamp control, remote keyless entry, equipment interlocks and more.

## The easy choice for drivers.

- An exceptionally short turning radius with standard 50° wheel cut provides outstanding maneuverability.
- Improved driver ergonomics with easy-to-reach controls, spacious foot room and increased steering wheel-to-seat space.
- Best-in-class HVAC system increases air-conditioning, heating and defrosting flow. Electronic controls make operation easier.

## World-class support.

- Your local International® dealer offers a single source for the parts, service, financial and warranty support you need to stay ahead.
- Innovative solutions from IFG (International Finance Group) include flexible payment plans and a wide variety of financing and leasing options that can be tailored to meet the unique needs of municipalities and private companies.
- For maximum uptime, the industry's largest parts distribution network and around-the-clock parts-ordering capability ensure you'll get the right part when you need it.

## World-class warranty coverage.

- The vehicle warranty includes a limited 5-year/150,000-mile (240,000 km) coverage on the chassis frame and engine. Custom and prepackaged extended warranties are also available. Your International dealer has full details of warranty coverage.

# INTERNATIONAL® 3200 INTEGRATED MOBILITY™ CHASSIS

For body integration with the International® Diamond Logic™ electrical system, remote electrical modules are available along the frame with factory-installed switches in the instrument panel.

All powertrain and frame components are covered by a limited 5-year warranty from International.

Standard base coat/clear coat paint.

With International® Intuitive Shift®, automatic transmission shift points are matched with engine power curves to deliver smoother shifts and increased responsiveness, reliability and fuel economy.

Three-piece Easy Tilt hood for ease of maintenance and reduced repair costs.

Large 19 1/2" (49.5 cm) tires provide long-wear life and high load capacity.

The International® VT 365 diesel engine and Allison 2200 PTS transmission ensure low maintenance costs and maximum uptime.

Low-profile rear wheel drive.

Four-wheel disc hydraulic brakes, standard.

The standard air over leaf suspension allows two- or four-corner kneeling.

Unique low-profile differential case is rubber-isolated, eliminating noise and vibration.

Multiple bus lengths available up to 36 feet (11 m). 19- to 35-passenger capacity.

Dash-mounted power parking brake provides fingertip control – eliminating levers and foot-operated parking brake pedals for easy operation.

Standard front and rear air suspension allows ADA-compliant ramps and delivers excellent ride and handling.
