

BE **SCHOOL BUS**

IC CORPORATION IS A WHOLLY OWNED SUBSIDIARY OF INTERNATIONAL TRUCK AND ENGINE CORPORATION.

NOT A CUTAWAY, A CUT ABOVE.

Our customers asked for a small bus with practical features that make it more functional to operate while costing less to own and maintain than a cutaway. One that enriches the owner, excites the driver, delights the maintainer and provides protection to the passenger.

That's the IC Corporation BE 200.

This bus features the same care and quality materials that go into all our school buses. So you get higher uptime. Easier serviceability. Expansive driver field of view and ergonomics. Improved economy.

Earning extra credit with drivers.

- Easy access to passengers without exiting the bus.
- A commanding driver field of view with a high three-piece flat windshield, overlapping wiper patterns, raised entrance door, tall driver-side window, large rear windows and optimally located mirrors.
- Available "one-button" stop feature, conveniently located on the steering wheel, significantly reduces the number of driver tasks and movements required for loading/unloading.

Making the maintainer's job easier.

- The advanced electrical system allows bus operation to be monitored and diagnosed quickly from the instrument panel.
- Serviceability is easier with a full-tilt hood, long service intervals, quick and easy fluid checks and an easy-to-replace flat windshield.
- The integrated powertrain features the International® VT 365 diesel engine and an Allison transmission – designed to deliver smoother shifts and increased responsiveness, reliability and durability.

Passengers always come first.

- The Leave No Student Behind™ system helps the driver to ensure the bus is properly inspected at day's end.
- A full-power 4-wheel disc brake system includes all-speed traction control as standard.
- Standard flat floor offers the ultimate in seating flexibility, greater capacity and easier interior maneuverability.

A total solution for real peace of mind.

- The BE 200 is backed by the industry's best warranty.
- IC is the only small bus manufacturer to offer an integrated body, chassis and engine warranty.

- Advanced all-steel body design includes a 78" roof height, 92" inside width and hidden hinges on emergency door.
- Flat floor provides seating flexibility, greater capacity and easier interior maneuverability. Optional 4-track floor tie-down is available.
- The electrical system allows the exterior light check to be performed by just one person.
- Durable 12" flat-faced rear bumper for easy lettering or decal application.
- Thicker 16-gauge side sheets and skirts resist corrosion and deliver long-lasting good looks.
- The Leave No Student Behind™ system helps the driver to ensure the bus is properly inspected at the end of the day.
- Controls for the power door and warning lights are available on the steering wheel.
- The standard 36" entry door and three-step entrance provide easy entry and an expansive driver field of view.
- Daytime running lights are standard and include a feature that activates full exterior lights when the wipers are turned on.
- Steel front and rear end caps with recessed-clearance lighting offer greater protection.
- Larger 15" full-power 4-wheel disc brakes with ABS and traction control.
- The wiper system automatically changes to the slowest speed after an extended idle, helping to reduce potential windshield scratching.
- The windshield is a three-piece flat glass with rubber "roped in" design for simple, low-cost replacement.
- Metal reinforcement plates for cross-view mirrors offer added durability.
- With easy-view fluid checks and a full-tilt hood that requires just 15 pounds of effort, daily checks can be performed quickly and easily by all drivers. Splash guards are integrated with the hood and stay out of the way for easy engine access.
- The patented integrated crossing arm motor is protected by mounting within the bumper.
- A wheel cut of up to 50° provides outstanding maneuverability.
